

AI Readiness

Connecting AI is a commercial and legal decision before a technical one. Know the risks and costs first.

01 One connection: a single API or MCP connector

ENTRY

AI Readiness Core

A one-off check of the system you want to connect AI to, with an executive summary report.

£150 one-off
Per solution or integration proposal

ENTRY

Core as a Service

The Core assessment run continuously, with Secure Score monitoring and a full gap analysis report.

£136.25 / month
Plus £520 setup

HIGH RISK

AI Integration

Not recommended, but often simple: we connect one standard API or MCP connector once your board approves it.

£150 per integration
One-off, by a senior engineer

- ✓ AI integration terms (disclaimer) signed
- ✓ Access added on board-level approval
- ✗ No privacy assessment
- ✗ No data loss assessment
- ✗ No GDPR controls
- ✗ No backup or DR controls
- ✗ No cost guardrails (securities may be required)

Both Core products include

- ✓ Risk assessment of the environment being connected
- ✓ External penetration test of the asset being connected
- ✓ Policy review
- ✓ Audit log assessment
- ✓ Cost guardrail review
- ✓ Scoped to one solution or integration proposal

02 AI Readiness: our recommendation the whole business, and your AI strategy

ONE-OFF

£6,250
£950 per additional site + 10 IPs

- ✓ Full environment assessment across the whole business
- ✓ Everything in AI Readiness Core
- ✓ Full internal and external penetration test, inside and out
- ✓ Full vulnerability assessment, inside and out
- ✓ Defender for AI usage reporting
- ✓ Systems integrations audit (digital and consultative)

AS A SERVICE

£450 / month
Up to 3 sites and 10 public IPs · £100 / month per additional site + 10 IPs · £2 / month per device above 1,000

- ✓ Data privacy risk assessment, including GDPR controls
- ✓ Cost controls risk assessment
- ✓ Core and default guardrail availability
- ✓ Strategic engagement on how AI would best work for the business
- ✗ Board retains liability for AI cost, data and all AI risks

Asked to "just connect it"? We will, once an officer signs our AI Integration disclaimer. Core checks one connection, not an AI strategy: we recommend AI Readiness and incident insurance first.
